Detailed information about the available subsidies and their respective amounts can be found on the official website novazelenausporam.cz, with some subsidies reaching as high as 650,000 Czech crowns.

Households in the Czech Republic now have the opportunity to benefit from significant state subsidies for energy-saving initiatives through the implementation of the “New Green Savings” (Nová zelená úsporám or NZÚ) program. Designed to promote energy efficiency, the program provides financial.

The New Green Savings Programme administered by the State Environmental Fund of the Czech Republic is one of the most effective programmes in the Czech Republic focused on energy savings in family houses and apartment buildings. During the 2014-2021 programming period, 77,000 beneficiaries.

Czechia has increased funding for its interest-free loan program for commercial and industrial (C&I) solar and storage projects to CZK 3 billion (\$132.2 million) after strong demand exhausted the previous budget. Czechia's Ministry of Industry and Trade (MIT) has added CZK 1 billion to its.

Households in the Czech Republic can receive hundreds of thousands of crowns in state subsidies for energy-saving measures. The program called “New Green Savings” (Nová zelená úsporám or NZÚ) offers financial support for a wide range of projects aimed at saving energy. The subsidies are not limited.

Solarstone solar roofs fit perfectly into the scheme It's an exciting time for energy in the Czech Republic, as the nation pours an additional CZK 55 billion (EUR 2.3 billion) into the New Green Savings program, which provides significant funding for homeowners to install rooftop solar PV systems.

Investors in Czech solar power plants risk losing the benefit of the subsidies they have enjoyed, following the announcement of a new bill, known as Lex OZE III, which aims to reduce the State subsidy pot currently made available to the renewables sector. Facing a potential reduction in their rate.
