

Government subsidy for container pv kit in France

Overview

Who financed the installation of photovoltaic panels in Bourg-en-Bresse?

It is financed by the CA3B (Communauté d'Agglomération du Bassin de Bourg-en-Bresse) Renewable Energy Fund. For the installation of photovoltaic panels, assistance can reach a minimum of 10% of the cost of eligible work, up to a maximum of €15,000, and up to 25% depending on the applicant's situation.

How do I qualify for government subsidies?

To qualify for government subsidies, it is recommended to hire certified professionals with the RGE (Reconnu Garant de l'Environnement) license. This ensures compliance with energy efficiency standards and professional expertise.

Which facilities can benefit from the power purchase obligation mechanism?

Facilities which cannot benefit from the power purchase obligation mechanism or from premium fees through the "open window" (e.g. offshore wind farms and photovoltaic installations with a power above 500kWp) may benefit from the power purchase obligation or from premium fees through a competitive process.
