

Government subsidy for container solar solutions in Chile

Overview

As part of the 2025 national budget, Chile is allocating \$1.2 billion in subsidies specifically for energy storage initiatives. Priority funding is directed toward integrated solar-plus-storage demonstration projects in the Atacama Desert, aiming to accelerate the energy transition in northern Chile.

Government subsidy for container solar solutions in Chile

Energy storage is a challenge and an opportunity for ...

Chilean president Gabriel Boric (centre) at the inauguration of an energy storage plant in the northern region of Antofagasta in April 2024. Chile has strong conditions for wind and solar energy, and is pursuing storage to help ...

BESS: Chile's renewable energy game-changer

Chile is making significant strides in harnessing its abundant solar energy potential, yet it faces critical challenges such as solar curtailment and grid constraints. These issues have prompted a shift towards integrating battery ...

Chile Renewables Sector - Battery Storage Pipeline

Chile has taken huge strides over the last 10 years as it has worked towards the goal of decarbonizing its electric sector. Since then, Chile has dramatically increased its solar and wind capacity year over year. It has done ...
