

# **Government subsidy for container solar solutions in Finland**

## Overview

---

Where can I find information about energy investment subsidies in Finland?

Website of Business Finland: First application round for energy investment subsidies On 4 October 2022, the Ministry of Economic Affairs and Employment made the first energy investment aid decisions under Finland's Recovery and Resilience Plan to promote clean energy solutions. Aid was granted to six projects totalling EUR 99.8 million.

How much funding is available for energy projects in 2022?

In 2022, approximately EUR 153 million in funding is available for large demonstration projects on new energy technology. Companies can apply for aid from Business Finland for energy investments that have an investment cost of less than EUR 5 million. Applications can be submitted at any time.

Can a project be funded without energy aid?

other impacts of the projects. Subsidies may be granted to companies and other entities such as municipalities, and only to projects or parts of projects that would not be launched without the energy aid. The project or a certain part of the project that will be funded may not be started before applying for aid.
