

Government subsidy for containerized battery storage in Brazil

Overview

Government mandates, feed-in tariffs, and capital subsidies are driving battery storage adoption in Brazil. Programs like energy storage obligation schemes, net metering, and storage tenders are being introduced. Will changes to Brazil's first capacity reserve auction undermine Bess?

Changes to Brazil's first capacity reserve auction of 2025 could undermine the expansion of the procurement regime to include battery energy storage systems (BESS) in the second exercise of the year, according to Markus Vlasits, chairman of Brazil's energy storage trade body.

Can Brazil be a big battery storage country?

With well-designed policies and regulations, Brazil has significant potential to follow in the footsteps of jurisdictions like California and Chile for large-scale battery storage, Germany for distributed and large-scale storage, and Australia for both pumped hydro and large-scale battery systems.

Can foreigners invest in battery storage businesses in Brazil?

Investment, incentives and taxation scenarios According to Brazilian law, there are no legal restrictions on direct foreign investment in the battery storage businesses or in the power sector (except in very specific segments or sectors of the economy).

Can batteries unlock the storage market in Brazil?

Unlocking the storage market in Brazil On Jan. 29, 2025, at 10:00 a.m., in a webinar held by pv magazine Brasil, Chinese electrical equipment maker TBEA will show how batteries are key tools to decarbonize, modernize, and make the Brazilian electrical system more flexible.
