Establish specific conditions for the Promotion of Electromobility in the national territory and its charging infrastructure, through the creation of a legal framework that reduces or eliminates access barriers to import and commercialization in the Electrical National Market. Electric bus bidding.

While the U.S. was expected to have nearly 60 GWh of installed battery capacity by the end of 2023, AMI estimates that Latin America had less than 1 GWh of operational BESS projects—a 60x difference. This large gap will be bridged at different speeds based on each country's specific regulations. To.

This Andean nation is quietly becoming a energy storage investment hotspot, blending solar-drenched landscapes with policy reforms sharper than an alpaca's haircut. With over \$130 billion planned in mining sector investments needing reliable power solutions [1], and renewable energy tax incentives.
