

# **Government subsidy for containerized battery storage in Vietnam**

## Overview

---

Through the newly launched ENABLE platform, ADB is coordinating a grant of USD 500,000 from the Smart Energy Innovation Fund (SEIF) and an additional USD 250,000 from GEAPP to support Vietnam in training, pilot project development, policy formulation, and technical standardization.

Through the newly launched ENABLE platform, ADB is coordinating a grant of USD 500,000 from the Smart Energy Innovation Fund (SEIF) and an additional USD 250,000 from GEAPP to support Vietnam in training, pilot project development, policy formulation, and technical standardization.

Vietnam is one of the first three countries selected for a pilot program under a new partnership initiative between the Asian Development Bank (ADB) and the Global Energy Alliance for People and Planet (GEAPP), aimed at developing battery energy storage systems (BESS). Alongside Mongolia and.

Years of promoting smart and sustainable energy solutions in Germany have led to a thriving industry known for world-class technologies. Thousands of specialised small and medium-sized enterprises (SMEs) focus on developing renewable energy systems, energy efficiency solutions, smart grids, and.

Hanoi, June 26, 2025 – Amid a strong energy transition and Viet Nam's efforts to fulfill its commitments toward achieving net-zero emissions by 2050, the research and deployment of Battery Energy Storage Systems (BESS), along with their integration with renewable energy solutions, have become an.

With the rapid growth of renewable energy in recent years, industry experts are urging Vietnam to increase the use of battery energy storage systems (BESS) within its national power grid. Pham Dang An, deputy general director of Vu Phong Energy Group, emphasized that BESS is becoming increasingly.

The original PDP8 approved in 2023 had set out a target of 300MW of BESS capacity by 2030. The revised PDP 8 (approved by the Prime Minister via Decision No. 768/QĐ-TTg) now targets between 10,000 MW and 16,300 MW of BESS capacity by 2030. This increase reflects Vietnam's commitment to integrating.

An advanced battery energy storage system run by AMI AC Renewables in central Vietnam will be built by U.S. conglomerate Honeywell with a \$3 million grant from the U.S. Mission to Vietnam. AMI AC Renewables is a joint venture (JV) between Vietnamese company AMI Renewables and AC Energy, a member of. How a Bess project is promoting energy storage in Vietnam?

Encouraging domestic enterprises to invest in new technologies will promote the growth of the energy storage industry in Vietnam. Investment in BESS projects in Vietnam is attracting the attention of international partners due to the country's strong potential for RE development.

How can international investors support re & Bess projects in Vietnam?

International capital: International financial institutions, such as the World Bank, the Asian Development Bank (ADB) and green investment funds, are ready to provide financial support for RE and BESS projects in Vietnam. International investors can leverage these funding sources to mitigate financial risks.

How can Vietnam continue to promote re and Bess projects?

Diversifying funding sources and support mechanisms is a crucial factor in helping Vietnam continue to strongly promote RE and BESS projects and, at the same time, achieve its energy transition and green-house gas emission reduction goals.

## Government subsidy for containerized battery storage in Vietnam

---

### [Containerized Maritime Energy Storage . ABB Marine ...](#)

ABB's Containerized Energy Storage System is a complete, self-contained battery solution for a large-scale marine energy storage. The batteries and converters, transformer, controls, cooling and auxiliary equipment are pre-assembled in ...

### ["Battery Storage Subsidies in Japan". ?????????? ...](#)

?? Battery Storage Subsidies in Japan  
Introduction In the Sixth Strategic Energy Plan,  
published by the Japanese Government in  
October 2021, targets are set to (a) achieve ...

### [AMI AC Renewables and Honeywell to Collaborate on ...](#)

Ho Chi Minh City, May 9, 2023 - AMI AC  
Renewables, through its subsidiary, AMI Khanh  
Hoa, signed a memorandum of understanding  
(MOU) with Honeywell to collaborate on a battery  
energy storage system pilot project in Khanh  
Hoa, ...

### [Guide to Containerized Battery Storage: ...](#)

Environmental Impact of Containerized Battery  
Storage The environmental footprint of  
Containerized Battery Storage (CBS) is a  
compelling narrative in the broader discourse of  
sustainable energy solutions. CBS holds a  
significant ...

### The latest subsidies and policies for energy storage companies

European countries" photovoltaic (PV) subsidy policies Energy storage installations have surged by 61% this year. The Paris Olympics feature a mobile floating solar plant, while the UK sets ...

### [LS Electric to deploy 90MWh BESS in Japan after ...](#)

Close-up of BESS containers at an LS Electric project. Image: LS Electric. LS Electric will deploy a 20MW/90MWh battery energy storage system (BESS) in Japan after it was awarded the contract through a competitive ...

### Japan's first subsidized flow battery under construction

Japan's Sumitomo Electric is building the first redox flow battery to be approved for government subsidy in the country. The 2 MW/8 MWh facility, which is under construction on the island of Kyushu, will be subsidized under ...

### [ACEN and AMI Renewables develop Vietnam's first ...](#)

The joint venture is collaborating with Honeywell to integrate Vietnam's first grid-connected battery energy storage system (BESS) project in the 50 MWp Khanh Hoa Solar plant. The project aims to demonstrate the commercial viability, ...
