

Government subsidy for containerized renewable power in Serbia

Overview

Does Serbia subsidize coal & electricity prices?

Serbia heavily subsidizes coal and electricity prices, inhibiting competition. Recently, the Serbian government and EPS have announced ambitious plans to transition to green energy solutions and reduce Serbia's dependence on Russian natural gas.

Will Serbia develop a pumped storage hydro project at Djerdap?

Serbia is interested in developing a Pumped Storage Hydro (PSH) project at Djerdap. The project is located east of Belgrade on the Danube River bordering with Romania. First conceived in 1974, Djerdap III is envisioned as a facility capable of daily and seasonal water regulation, with installed capacity of between 1800 and 2400 MW.

What incentives are retained for RES energy production?

The previously existing incentives (feed-in tariffs) for production of electric energy from RES are retained only for small plants (i.e. power plants with a capacity below 500 kW and below 3MW for wind power plants) and demonstration projects.
