

# **Government subsidy for containerized solar generator in Greece**

## Overview

---

Greece's Ministry of Environment and Energy has launched a €200m subsidy program for solar projects and small storage systems to encourage residential and agricultural segments to adopt renewable energy.

Greece's Ministry of Environment and Energy has launched a €200m subsidy program for solar projects and small storage systems to encourage residential and agricultural segments to adopt renewable energy.

Greece has launched a new subsidy program to encourage more households and farmers to install solar projects and small storage systems. The €200 million (\$215.3 million) scheme is part of the country's post-pandemic recovery plan and will cover between 20% to 65% of PV system costs, depending on.

You can apply for the program "on the roof" and receive a grant. You should already have a grid contract with Hellenic Electricity Distribution Network Operator excluding the connection of the photovoltaic plant. You will need:
