

Government subsidy for containerized solar power plant in Nigeria

Overview

The World Bank has granted Nigeria's Federal Government a \$750 million loan to offer subsidies to developers and operators of solar mini-grids in areas across the country that lack electricity access.

The World Bank has granted Nigeria's Federal Government a \$750 million loan to offer subsidies to developers and operators of solar mini-grids in areas across the country that lack electricity access.

Nigeria is set to expand access to electricity in unserved and underserved areas through a \$750 million loan from the World Bank. The loan, approved in December 2023 under the Distributed Access through Renewable Energy Scale-up (DARES) project, will be used to subsidize solar mini-grid developers.

The federal government of Nigeria is set to offer subsidies to developers and operators of solar mini grids in unserved and underserved areas across the country. This initiative will be facilitated through a World Bank-approved loan totaling \$750 million under the Distributed Access through

The federal government plans to provide subsidy to developers and operators of solar mini-grids in unserved and underserved areas in the country. The subsidy will be provided through a World Bank approved loan of \$750 million under the Distributed Access through Renewable Energy Scale-up (DARES).

The federal government is ramping up the disbursement of the N140 billion solar intervention fund, a facility by the Central Bank of Nigeria (CBN) to close the huge energy gap, especially in Nigeria's rural communities. In the last quarter of 2020, the CBN had introduced the fund that would offer.

The World Bank has stated that Nigeria is among a list of top 10 countries with high debt risk exposure. The federal government intends to offer financial assistance to companies who build and run solar mini-grids in neglected and unserved regions of the nation. The \$750 million loan, granted by.

Federal Government is pursuing a \$50 million loan from the World Bank to transform the power sector. This funding will support state governments in

setting up solar plant pilots and upgrading infrastructure. The announcement came after a crucial meeting in Abuja between Wale Edun, Nigeria's.
