

# **Government subsidy for customized portable solar solution in Iran**

## Overview

---

According to earlier critics, even if half of \$20 billion is passed as part of the compensation to the poorer 50% of the , it will amount to \$25 per eligible person per month; "no way near enough to make up for such inflation rates". Critics say that if the government goes for the top of this range could rise up to 40% through the economy. The , however, has predicted a more modera.

Iran has recently initiated an ambitious program aimed at providing portable solar panels to its nomadic households at a fraction of the cost. This initiative, which requires families to pay only 10% of the total price, is part of a broader effort to enhance electricity access for these communities.
