

Government subsidy for mobile foldable pv system in Oman

Overview

What are the advantages of solar energy in Oman?

The ability to produce electricity of the grid is a major advantage of solar energy for people who live in the remote and rural areas of Oman. Electricity produced from diesel powered generators and the cost of installing power lines are often exorbitantly high in these areas and many have frequent power-cuts. 6.

Should energy funds invest in a 2/3 megawatt project in Oman?

However, energy funds have shown no interest in local projects lower than 2/3 megawatts, as the rate of return is lower and risk is higher in Oman.

Is the yearly subsidy for domestic consumers sustainable?

The yearly subsidy for domestic consumers is over 600 million OMR and is unsustainable under current budget constraints. Large scale Industrial and Commercial consumers had subsidies removed in 2018.

Government subsidy for mobile foldable pv system in Oman
