# **Government subsidy for mobile pv generator in Oman**

## Overview

---

Should energy funds invest in a 2/3 megawatt project in Oman?

However, energy funds have shown no interest in local projects lower than 2/3 megawatts, as the rate of return is lower and risk is higher in Oman.

What is Oman's self-generation policy?

This policy is part of Oman's vision to promote sustainable development, attract investment in clean energy, and support the growth of the renewable energy sector, while ensuring a balance between the interests of investors and consumers. Self-Generation Policy.

Who is Nama power & procurement company (PWP)?

Nama Power and Procurement Company SAOC ( "PWP" ), Oman's statutory monopoly power procurer, procured their first utility-scale, solar power plant in 2020 named Ibri-II, with a capacity of 500MW which was developed by a consortium led by ACWA Power and came into operation in January 2022.

Is the yearly subsidy for domestic consumers sustainable?

The yearly subsidy for domestic consumers is over 600 million OMR and is unsustainable under current budget constraints. Large scale Industrial and Commercial consumers had subsidies removed in 2018.
