

# **Government subsidy for mobile pv generator in Portugal**

## Overview

---

The European Commission has approved a €350 million Portuguese grant scheme for the production of equipment for renewable energy. The funds, which will be granted no later than Dec. 31, 2025, will take the form of direct grants.

The European Commission has approved a €350 million Portuguese grant scheme for the production of equipment for renewable energy. The funds, which will be granted no later than Dec. 31, 2025, will take the form of direct grants.

The Minister of the Environment, Duarte Cordeiro, announced the reopening of applications to the More Sustainable Buildings Program from August 16 until October 31. The allocation of the first notice of 2023 will be 30 million euros. There is good news and bad news for those who have invested in.

This is the latest state aid scheme the European Commission has approved, with one from Poland given the green light last month. Credit: Glyn Lowe via Flickr. The European Commission (EC) has approved a €1 billion (US\$1.1 billion) Portuguese state aid scheme to support investments in the production.

Portugal has set ambitious 2030 targets for emissions reduction, energy efficiency, and renewable energy. The country aims to generate 85% of its annual electricity from renewable sources by 2030, up from around 60% in 2022, which was already one of the highest ratios in Europe. The country saw a.

To foster the transition towards a net-zero economy. The scheme was approved under the State aid Temporary Crisis and Transition Framework ('TCTF'), adopted by the Commission on 9 March 2023 and amended on 20 November 2023 and on 2 May 2024. Portugal notified to the Commission, under the TCTF, a €1.

Portugal's EUR 350 million state aid scheme for renewable energy equipment approved by the European Commission, accelerating the country's transition

to a net-zero economy. The European Commission has approved a EUR 350 million state aid scheme in Portugal to support the production of renewable.

The Government approved today, 04 October 2024, a set of measures in the Council of Ministers on Energy and Climate with the aim of strengthening the fight against climate change and accelerating the energy transition in Portugal. PNEC 2030 revision with more ambitious targets Among the main. How can the government promote sustainable fuels in Portugal?

The Government announced measures to promote the use of sustainable fuels, including the creation of the Alliance for Aviation Sustainability and the incentive on producing biomethane and green hydrogen in Portugal. The aim of these initiatives is to reduce dependence on fossil fuels, making the economy more sustainable and competitive.

Is the Portuguese scheme in line with the temporary crisis and transition framework?

The Commission found that the Portuguese scheme is in line with the conditions set out in the Temporary Crisis and Transition Framework. In particular, the aid (i) will incentivise the production of relevant equipment for the transition towards a net-zero economy; and (ii) will be granted no later than 31 December 2025.

What is PV moduletech Europe 2025?

PV ModuleTech Europe 2025 is a two-day conference that tackles these challenges directly, with an agenda that addresses all aspects of module supplier selection; product availability, technology offerings, traceability of supply-chain, factory auditing, module testing and reliability, and company bankability.
