# **Government subsidy for mobile pv generator in Sweden**

## Overview

---

Will Sweden reduce the subsidy for solar?

The Swedish government is considering reducing the subsidy for solar installations and removing the income tax reduction for households and businesses that micro-produce renewable electricity. Svensk Solenergi, Sweden's leading solar association, has criticized the proposals.

What subsidies are available for solar roof installations?

There are two main subsidies, the Green Deduction (grön teknik) and ROT. Generally, one can avail of either the grön teknik or the ROT deduction, but not both. In the case of solar roof installations, it's possible to utilize both the ROT and grön teknik.

Will the government stop subsidized solar cells?

It also plans to scrap the tax reduction for the micro-production of renewable electricity. The ministry said in a statement on the government's website that installations have increased sharply, which is why there is no longer a need to subsidize solar cells.

Do PV system owners get subsidies in 2022?

However, as of 2022, no subsidies exist except for the private domestic PV market segment. In general, a PV system owner that sells the excess electricity will receive compensation from the electricity trading utility company and from the grid owner. The compensation varies depending on the grid owner.

Does Sweden have a roadmap for solar PV?

Sweden lacks a roadmap or strategy on solar PV, but there are some reports by the Swedish Energy Agency including aspects on potential, barriers, roadmaps, etc.

## Will Sweden provide backup power generators to Ukraine?

This agreement aims to strengthen cooperation between Sweden and the United States to support the development of new nuclear power. The Government has decided that Svenska kraftnät, Sweden's power grid authority, may provide backup power generators to Ukraine, to support the country's energy supply.
