

Government subsidy for mobile solar container in Malaysia

Overview

On 27 March 2024, the Ministry of Energy Transition and Water Transformation announced a special incentive known as the Solar for Rakyat Incentive Scheme ("SolaRIS"). The SolaRIS aims to encourage the installation of solar photovoltaic systems by domestic consumers. Should you switch to solar power in Malaysia?

As Malaysia accelerates its push toward clean energy, several government incentives are making it easier and more profitable for businesses and homeowners to adopt solar power. Here's what's available right now if you're considering making the switch.

Why should you install a solar panel system in Malaysia?

Installing a solar panel system for your home or business can significantly lower your monthly electricity costs. By generating your power through a rooftop solar system, you can reduce carbon footprint, in some cases, can even export excess electricity back to TNB with 1-to-1 offset basis through Malaysia's Net Energy Metering (NEM) program.

Why should you invest in solar panels in Malaysia?

Incorporating solar panel into your home or business is not just about reducing your electricity bill, it's about making a lasting investment in the future. With the solar initiatives in Malaysia's Budget 2025, the government has made it clear that renewable energy, particularly solar, is a national priority.

Will Kenyir floating solar hybrid farm & Terengganu's green hydrogen hub generate 1000 MW?

Kenyir Floating Solar Hybrid Farm and Terengganu's green hydrogen hub will generate up to 1,000 MW, paving the way for large-scale renewable energy. The Large Scale Solar (LSS) program is expanding, with a 2,000 MW quota to be evaluated by December 2024.

What does the SELCO programme mean for solar PV installations?

1. Broader Options for Solar PV system Installations Previously, the SelCo programme restricted solar photovoltaic (PV) installations to rooftops with a capacity cap of 85% of a building's maximum electricity demand. The new guidelines remove these limitations, allowing:.

Can a business claim a 100% capital allowance for a solar project?

GITA allows businesses to claim a 100% capital allowance, which can offset up to 70% of statutory income over 5 years. This applies whether you're using the solar system internally or for green projects. GITE offers up to 70% income tax exemption for solar leasing projects (between 3-30 MW), with durations of 5-10 years depending on project size.
