

# **Government subsidy for mobile solar station in Brazil**

## Overview

---

Will a fee be applied for solar energy in Brazil?

However, Brazil's electricity regulator, Agência Nacional de Energia Elétrica (ANEEL), proposed to apply a fee for solar systems with up to 5 MW of power generation capacity. Further, installing other renewable energy sources such as wind, hydro, and others is expected to hinder the market's growth during the forecast period.

Are international renewables developers rushing to secure projects in Brazil?

International renewables developers are rushing to secure projects in Brazil before the government takes away subsidies for new solar and wind farm installations next year.

Why is solar 'driving new projects' in Brazil?

The further development of solar power technology, more efficient panels and falling manufacturing costs has lead to solar “driving new projects” in Brazil, with developers securing 4.9GW of installed capacity in issued licenses since last September, close to double the 2.5GW secured for wind projects.
