

Government subsidy for mobile solar station in Chile

Overview

As part of the 2025 national budget, Chile is allocating \$1.2 billion in subsidies specifically for energy storage initiatives. Priority funding is directed toward integrated solar-plus-storage demonstration projects in the Atacama Desert, aiming to accelerate the energy transition in northern Chile. How much does a solar power plant cost in Chile?

Because of its good solar resource several international companies have bid record low prices for solar thermal power plants in Chile, including the Copiapó Solar Project bid at \$63/MWh by SolarReserve in 2017. If realized this would have been the lowest ever price for a CSP project in the world.

Is the boric government's subsidy plan a signal that Chile has changed?

Investors have expressed a broader concern that the Boric government's subsidy plan, intended to last three years, is a further signal that Chile, long known as an emerging market haven because of its stable, predictable rules, has changed for the worse.

How many MW does SolarPack have in Chile?

With that, Solarpack raised its total operating capacity in Chile at the time to 181 MW. In 2013 the Atacama 1 solar complex was proposed as a 110 MW solar thermal electric plant (the first in Latin America) and a 100 MW photovoltaic plant. The solar thermal plant will include 17.5 hours of thermal storage.

When did SolarPack start supplying power to Chile?

In March 2020 PV Magazine reported that Solarpack had begun providing power on 2 March 2020, to the Chilean grid from its 123 MW Granja project, 10 months ahead of the contracted date of 1 January 2021. With that, Solarpack raised its total operating capacity in Chile at the time to 181 MW.

How much money has Blackrock spent on infrastructure projects in Chile?

Other investors, including leading infrastructure groups such as BlackRock, have spent a total of \$3bn on such projects in Chile, according to Infralogic. "We won't be able to pay the debt. This has an effect on subsequent investment... we were willing to continue investing in Chile but that will just stop," Sabaté said.

Will BYD deliver 3.4 GWh to Chile?

"BYD to deliver 3.4 GWh to Chile in Latin America's largest battery supply deal". Energy Storage. ^ a b Ini, Luis (29 August 2024).
