Portugal news » Finance » Government support for solar panels falls to €1,000 in Lisbon and Porto The Minister of the Environment, Duarte Cordeiro, announced the reopening of applications to the More Sustainable Buildings Program from August 16 until October 31. The allocation of the first notice of 2023 will be 30 million euros.

Does Portugal have a solar energy policy?

Solar energy accounts for 9% of Portugal's electricity generation, with continuous growth expected in the coming years (source). Portugal's government has introduced several initiatives to promote solar energy: Self-consumption Subsidies: Homeowners can receive grants covering up to 85% of installation costs, capped at €2,500 per system.

Why is Portugal a leader in solar energy adoption?

Portugal has emerged as a global leader in solar energy adoption, thanks to its favorable climate, ambitious renewable energy targets, and robust policy frameworks. This page provides detailed insights into the solar landscape of Portugal, offering valuable information for professionals and enthusiasts in the renewable energy sector.

Is Portugal a good country to install solar panels?

Portugal enjoys over 300 sunny days annually, making it one of the most solar-rich countries in Europe. According to data from the International Energy Agency (IEA), the country's annual solar irradiation ranges between 1,600 and 2,200 kWh/m<sup>2</sup>, making it ideal for photovoltaic (PV) installations.

Why do solar panels shut off in Portugal?

The majority of solar panel systems in Portugal automatically shut off in the event of a power outage for safety. This happens so electricity is not fed back into the grid, potentially harming technicians working on the lines. However, there are solutions such as SmartGuard by Huawei, to keep your system

running during the power outage.

Should you invest in solar energy in Portugal in 2025?

Pearls of Portugal can help you from start to finish. Portugal's favourable solar profile combined with solid policy and finance incentives make it a sound investment in 2025 in the area of solar energy.
