---

Explore Poland's Mój Prąd 6.0 program offering PLN 400 million in funding for solar installations and energy storage. Learn about eligibility, application details, and the transition to net-billing.

Explore Poland's Mój Prąd 6.0 program offering PLN 400 million in funding for solar installations and energy storage. Learn about eligibility, application details, and the transition to net-billing.

Poland's Ministry of Climate and Environment has announced the launch of the sixth edition of the "My Electricity" (Mój Prąd) program. This initiative, set to begin on September 2, 2024, and run until December 20, 2024, or until funds are depleted, aims to further support the adoption of renewable.

Poland's 2024-2025 energy storage subsidy programs are a key element in the country's energy transition. With the growing demand for stable energy sources and the integration of renewables into the grid, energy storage facilities take on special importance. The National Fund for Environmental.

The sixth edition of the Polish government's residential solar and storage rebate scheme is now open, with a total budget of PLN 400 million (\$103.2 million). Applications will be accepted until Dec. 20, or until funds are exhausted. Poland's National Fund for Environmental Protection and Water.

The Polish government has unveiled details of the subsidies available under the "My Electricity 6.0" program, aimed at boosting solar energy adoption. The initiative, announced by the Ministry of Climate and Environment, offers financial support to households and small businesses investing in.

The "My Electricity" programme in Poland is a nationwide project aimed at increasing the share of distributed solar PV in the production of electricity, with funding from the National Fund for Environmental Protection and Water Management. The support includes subsidies for PV installations.

The application for the sixth phase of Poland's "Mój Prąd" (My Electricity) rebate program began earlier this month, offering a total subsidy of PLN 400

million (approximately CNY 738 million) for residential photovoltaic (PV), battery storage, and hot water storage systems. Applies to net-metering.
