Government subsidy for modular solar container in Ghana

Overview

This worldwide sustainable energy initiative comes from the United Nations and consists of three objectives. Firstly the ensurement of universal access to modern energy services. Secondly, trying to double the rate of energy efficiency and thirdly doubling the share of renewable energy in the global energy mix.

The Ghana Energy Development and Access Project (GEDAP) is part of the SE4ALL Action Plan. It is a multi-donor funding project to support Ghana in the electricity efficiency of the distribution system and the reduction of greenhouse gas emissions. Some.

The government also support the solar sector by exempt duties and VAT, which is similar to subsidies for solar in Ghana. Firstly, all imported solar panels into Ghana are VAT free. As for import duty, industrial/energy plant, machinery or equipment have an.

The Renewable Energy Act mentioned before established the Renewable Energy Fund. This Fund provides financial resources for the.

Besides the installment of the Renewable Energy Fund, the Ghanaian government also installed the Scaling-up Renewable Energy Program in 2015. This program means to unlock financing opportunities which can accelerate the development of renewable energy.
