

# **Government subsidy for off-grid solar container in Argentina**

## Overview

---

Is solar adoption a problem in Argentina?

(Credit: Nestor Barbitta) For a country with the abundant solar resources of Argentina, the lack of PV adoption is cause for concern. The north of Argentina experiences high levels of solar radiation and has the capacity to produce electricity and jobs for rural and underserved communities in the country.

Are there liquefied natural gas regasification facilities in Argentina?

There have been two liquefied natural gas (LNG) regasification facilities in Argentina, including in Bahia Blanca and Escobar in recent years. Regasification is the process of converting liquefied natural gas (LNG) back into a gaseous state.

What is the average rig count in Argentina in 2023?

Argentina's average rig count was 58 in 2023, which was down from 64 in 2019 as a result of high well costs (Figure 8). Argentina's oil production growth accelerated from 2021 to 2023, increasing by 8% per year on average. Most of the growth came from crude oil, including condensates (Figure 9).

## Government subsidy for off-grid solar container in Argentina
