

**Solar360 Mobile Energy**

# **Government subsidy for portable pv system in India**

## Overview

---

The scheme provides for a subsidy of 60% of the solar unit cost for systems up to 2kW capacity and 40 percent of additional system cost for systems between 2 to 3kW capacity. The subsidy has been capped at 3kW capacity. What are government subsidies for solar panels?

Government subsidies for solar panels can be defined as programs, established and designed to foster the use of renewable energy for which financial resources are made available and a solar panel is set up. These programs are meant to promote the use of solar energy, cutting down reliance on non-renewable resources and promoting a better tomorrow.

What is Govt solar panel scheme in India?

As India continues its push toward renewable energy, the solar panel government scheme plays a crucial role in making solar power affordable for households and businesses. The govt solar panel scheme offers financial assistance, tax benefits, and rebates to encourage the adoption of solar energy across the country.

What is the solar subsidy program in Punjab?

The solar subsidy Punjab program supports residential, commercial, and agricultural consumers. The state government offers subsidies up to 40% for solar rooftop systems, depending on system capacity. Additionally, Punjab promotes solar-powered irrigation systems for farmers.

Who can benefit from a solar PV subsidy?

Businesses, industries, and commercial establishments can benefit from subsidies for the installation of rooftop or ground-mounted solar PV systems. The subsidy amount and capacity limits vary based on the specific scheme and the industry sector.

What is a rooftop solar PV subsidy?

Homeowners and residential societies can avail of subsidies for the installation of rooftop solar PV systems up to a certain capacity, typically ranging from 1 kW to 10 kW. These subsidies are aimed at promoting the adoption of solar energy at the household level and reducing reliance on conventional power sources.

How much subsidy does pm solar scheme offer?

The PM Solar Scheme offers subsidies up to 40% for small-scale solar systems and around 20% for larger installations. 3. How long does it take to get the subsidy?

The processing time varies from state to state but usually takes 2-3 months after installation verification.
