

# **Government subsidy for portable solar container in Argentina**

## Overview

---

Can a large user buy electricity from a renewable generator in Argentina?

In Argentina, for a large user, is generally less expensive to purchase electricity directly from a renewable generator than to purchase it from the grid administrator CAMMESA. Furthermore, large users are, as a rule, barred from purchasing electricity directly from a thermal generator.

Is solar adoption a problem in Argentina?

(Credit: Nestor Barbitta) For a country with the abundant solar resources of Argentina, the lack of PV adoption is cause for concern. The north of Argentina experiences high levels of solar radiation and has the capacity to produce electricity and jobs for rural and underserved communities in the country.

Are residential Distributed generation projects hindering mainstream solar adoption?

However, the lack of residential distributed generation projects is hindering mainstream solar adoption. Of the 8.6 MW of distributed generation projects across Argentina, only 1.5 MW are residential. 4
