

# **Government subsidy for portable solar container in Luxembourg**

## Overview

---

The "KLIMABONUS 522" program is a Luxembourgish government initiative that provides financial incentives for the installation of solar photovoltaic (PV) systems. The program offers a flat-rate subsidy of €500 per kilowatt-peak (kWp) of installed capacity, up to a maximum of 50 kWp.

The "KLIMABONUS 522" program is a Luxembourgish government initiative that provides financial incentives for the installation of solar photovoltaic (PV) systems. The program offers a flat-rate subsidy of €500 per kilowatt-peak (kWp) of installed capacity, up to a maximum of 50 kWp.

The Environment Agency (Administration de l'environnement - AEV) grants subsidies for investments in projects aimed at rationalising the use of energy and promoting the use of renewable energy sources. This is financial aid – technical installation subsidies known as 'Klimabonus' subsidies – to.

State subsidies for sustainable housing and mobility, promotion of renewable energy and forest estate management Climate change is not coming. It is already here. The signs of climate change are clear: we all need to act now. That's why Klimabonus provides financial support to encourage individual.

The subsidy from the municipality will be 30% of the State subsidy (max 7200 EURO). The subsidy from the municipality will be 50% of the State subsidy (max 5000 EURO). The subsidy from the municipality will be 35% of the State subsidy (max 8500 EURO). The subsidy from the municipality will be 20%.

Adopting a more sustainable way of life has benefits for both the environment and your own well-being. The Grand Duchy offers a range of grants and subsidies to encourage environmentally friendly choices, whether it's for installing solar panels, improving the insulation of your home or buying.
