

# **Government subsidy for portable solar generator in Serbia**

## Overview

---

**Subsidies:** The Serbian Ministry of Mining and Energy provides subsidies covering up to 50% of installation costs for solar projects. Local municipalities often provide additional incentives, especially for systems of 6 kW or less.

**Subsidies:** The Serbian Ministry of Mining and Energy provides subsidies covering up to 50% of installation costs for solar projects. Local municipalities often provide additional incentives, especially for systems of 6 kW or less.

Becoming a solar prosumer in Serbia is now easier than ever, allowing households to generate their own renewable energy, reduce costs, and support Serbia's shift toward sustainability. This guide provides all the essential steps for homeowners to install solar panels and enjoy the benefits of solar.

In the EU, solar power surpassed coal for the first time in 2023. The Ministry launched a new program offering citizens 50–65% subsidies for installing solar panels. A 5 kW household system costs around 700,000 RSD, or 350,000 RSD with subsidies, with a 6–7 year payback. For companies, a 50 kW.

The National Assembly adopted the changes to the Law on Energy including numerous novelties for households, businesses, investors and state companies. One of the main ones is lifting the ban on the construction of nuclear power plants. The main goal of the changes to the Law on Energy is to.

The Law on the Use of Renewable Energy Sources was enacted by Serbia in April 2021. This law represents a significant step towards promoting green energy and environmental sustainability in the country. The article explains the main points of the Law, and its impact on renewable energy investments.

Now there are plans in place for UGT Renewables and Hyundai Engineering to provide a series of self-balanced utility-scale solar projects bringing reliable, renewable energy to every corner of Serbia. Delivering the utmost flexibility to the Serbian government, the Large-Scale Solar and Battery.

Also, the construction of solar power plants is supported by a state subsidy, and the international organization The Nature Conservancy (TNC) published a map of the 100 best locations for solar power plants in Serbia. According to experts, the trend of growing interest in investments in solar power.
