# **Government subsidy for portable solar power box in Argentina**

## Overview

---

The Argentine government offers exemptions on various components, such as solar panels, inverters, and batteries, which typically come with high import duties. **Savings on Solar Equipment:** With the import duty exemption, you can save significantly on the initial investment. Is the Argentine renewable PPA market a corporate market?

This initial trend started to shift towards a corporate market through Resolution No. 281/2017 of the Argentine Ministry of Energy and Mining (currently, Secretary of Energy), which established a set of rules for the corporate renewable PPA market (MATER).

Can a large user buy electricity from a renewable generator in Argentina?

In Argentina, for a large user, it is generally less expensive to purchase electricity directly from a renewable generator than to purchase it from the grid administrator CAMMESA. Furthermore, large users are, as a rule, barred from purchasing electricity directly from a thermal generator.

Is solar adoption a problem in Argentina?

(Credit: Nestor Barbitta) For a country with the abundant solar resources of Argentina, the lack of PV adoption is cause for concern. The north of Argentina experiences high levels of solar radiation and has the capacity to produce electricity and jobs for rural and underserved communities in the country.

Are Argentine oil and gas companies moving towards the power industry?

The Argentine market is not strange to the shift of oil and gas companies towards the power industry. Different long-standing Argentine oil and gas companies like Tecpetrol, Pan American Energy (PAE) and YPF have been investing in renewable generation projects in the past years.

Does Argentina have a problem with PV adoption?

Argentina is by no means the only country to be stuck in a difficult situation

with PV adoption. But with the amount of land well-suited to PV use, it is disappointing to see this degree of underutilization.

Are residential Distributed generation projects hindering mainstream solar adoption?

However, the lack of residential distributed generation projects is hindering mainstream solar adoption. Of the 8.6 MW of distributed generation projects across Argentina, only 1.5 MW are residential. 4
