

# **Government subsidy for portable solar power box in Sweden**

## Overview

---

Grön teknik is a tax reduction that can be obtained for solar panels, energy storage, and electric car charging points. The tax reduction provides a 20% deduction on material and installation costs for solar panels, and a 50% deduction for batteries and charging points. Will Sweden reduce the subsidy for solar?

The Swedish government is considering reducing the subsidy for solar installations and removing the income tax reduction for households and businesses that micro-produce renewable electricity. Svensk Solenergi, Sweden's leading solar association, has criticized the proposals.

Will Sweden reduce tax breaks for green energy projects?

In a move that has sparked significant debate, the Swedish government has put forward a proposal aimed at reducing tax breaks for green energy projects. The goal?

To generate an estimated 8.5 billion kronor (approximately \$773 million), which will be funneled into funding tax cuts, particularly benefiting middle-income earners.

What subsidies are available for solar roof installations?

There are two main subsidies, the Green Deduction (grön teknik) and ROT. Generally, one can avail of either the grön teknik or the ROT deduction, but not both. In the case of solar roof installations, it's possible to utilize both the ROT and grön teknik.

Will the government stop subsidized solar cells?

It also plans to scrap the tax reduction for the micro-production of renewable electricity. The ministry said in a statement on the government's website that installations have increased sharply, which is why there is no longer a need to subsidize solar cells.

How much does a government subsidy cover a solar system?

The government subsidy covers up to 60% of the cost of installing a residential energy storage system, with a maximum coverage of 50,000 kroner or \$5,600. This includes the cost of the battery, wiring, control systems, smart energy hub, and installation work for homes with rooftop solar systems.

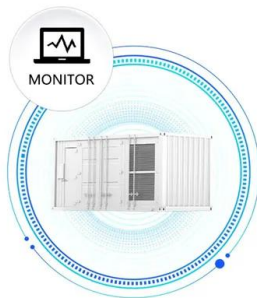

When will solar subsidy come into force?

If agreed upon, the reduced subsidy for solar cells would come into force on July 1, 2025, while the removal of the micro-production tax reduction would occur at the start of 2026. The ministry said the policy changes will help to increase tax revenue by up to SEK 880 million (\$86.7 million) in 2026.
