## Overview

---

Is the Argentine renewable PPA market a corporate market?

This initial trend started to shift towards a corporate market through Resolution No. 281/2017 of the Argentine Ministry of Energy and Mining (currently, Secretary of Energy), which established a set of rules for the corporate renewable PPA market (MATER).

Are corporate PPAs a new phenomenon in Argentina?

Corporate PPAs are not a new phenomenon in Argentina; on the contrary, the power regulatory framework in place since 1992 provides rules to encourage large users to enter into PPAs directly with power generators. However, PPA regulations in the past have only contemplated the existence of conventional sources (mostly thermal power stations).

Are Argentine oil and gas companies moving towards the power industry?

The Argentine market is not strange to the shift of oil and gas companies towards the power industry. Different long-standing Argentine oil and gas companies like Tecpetrol, Pan American Energy (PAE) and YPF have been investing in renewable generation projects in the past years.

What are the minimum terms CAMMESA requires to register a PPA?

The minimum terms CAMMESA requires to register a PPA include: (i) duration; (ii) price; (iii) contracted energy (on month and annual basis); (iv) termination events; and (v) priorities (in case the project has more than one off-taker, which is generally the rule).
