

Government subsidy for retractable solar panel container in Vietnam

Overview

Offshore wind power and green hydrogen projects in Vietnam may soon benefit from unprecedented incentives, including fee exemptions, guaranteed electricity volumes, and flexible investment terms, as proposed in a new draft policy.

Offshore wind power and green hydrogen projects in Vietnam may soon benefit from unprecedented incentives, including fee exemptions, guaranteed electricity volumes, and flexible investment terms, as proposed in a new draft policy.

To accelerate the development of the renewable energy industry, the Vietnamese government has introduced a new electricity decree, prioritizing the promotion of power generation projects using renewable energy sources such as solar and wind power, as well as energy storage systems. Additionally,

Vietnam's solar power sector is governed by a number of key regulations and policies aimed at promoting the development of renewable energy while managing the challenges associated with rapid growth. The FiT program has been a major driver of solar power development in Vietnam, offering a tariff of.

On April 6, 2020, the Prime Minister of Vietnam issued Decision No. 13/2020/QĐ-TTg on the mechanism for encouraging the development of solar power in Vietnam ("Decision 13"). Decision 13, which will take effect on May 22, 2020, introduces a number of new incentives and mechanisms for investors in.

providing detailed implementation guidance under the Electricity Law 2024 in relation to the development of renewable energy and new-energy electricity projects, with a particular focus on offshore wind power and rooftop solar power systems (RTS). Decree 58 introduces important regulatory.

After a long wait, the Government has officially issued Decree No. 135/2024/ND-CP dated 22 October 2024, providing mechanisms and policies

to encourage the development of on-site self-consumption rooftop solar power ("Decree 135"). The Decree comes into effect on 22 October 2024 with the following.

Vietnam's draft policy is considered to provide limited subsidies and loans for residential solar installations. (Photo: iStock) To reduce strain on the national power grid, the Vietnamese government is set to introduce new legislation encouraging households to install rooftop solar systems for.
