

Government subsidy for retractable solar panels in Ecuador

Overview

Ecuador's National Assembly has unanimously approved a new law to boost private energy generation amid an ongoing energy crisis marked by mandated night blackouts.

Ecuador's National Assembly has unanimously approved a new law to boost private energy generation amid an ongoing energy crisis marked by mandated night blackouts.

Ecuador's National Assembly has unanimously approved a new law to promote private initiative in energy generation. Among other measures, it seeks to stimulate self-consumption and promote private investment in the energy sector. Ecuador's National Assembly Image: Asamblea Nacional del Ecuador.

On 27 October 2024, the National Assembly unanimously approved the Organic Law to Promote Private Initiative in Energy Generation, aimed at boosting private investment in the electricity sector. Key provisions include: Automatic State incentives for private projects using solar, wind, hydro, or.

La Ministra de Energía, Inés Manzano a través de un vídeo corto subido en redes sociales, detalló las acciones que desde el gobierno se han tomado para enfrentar la actual situación energética que atraviesa el país. Entre ellas que en Ecuador ya existe una amplia acogida de venta y compra de.

In 2022, Ecuador's generation capacity was 8,864 MW, of which 5,425 MW (61 percent) corresponded to renewable energy and 3,438 MW (39 percent) to non-renewable energy sources (fossil fuels derived from oil and natural gas). Renewable energy is comprised of hydro power (5,191 MW - 95.68 percent).

De acuerdo con la regulación ARCERNNR 001-2021 que entró en vigencia en abril de 2021, cualquier persona puede instalar paneles solares en su casa o empresa para generar energía eléctrica para autoconsumo. La legalización del sistema fotovoltaico se debe realizar a través de la distribuidora.

Ecuador is set to invest \$913 million in developing 1.03 gigawatts (GW) of solar energy by 2030, according to the Ministry of Energy and Mines. This

ambitious initiative forms a key part of the country's strategy to expand its renewable energy capacity, reduce its reliance on fossil fuels, and.
