

Government subsidy for retractable solar panels in Nigeria

Overview

The subsidy will be provided through a World Bank approved loan of \$750 million under the Distributed Access through Renewable Energy Scale-up (DARES) project. This was disclosed in the financing agreement for the loan project seen by Nairametrics.

The subsidy will be provided through a World Bank approved loan of \$750 million under the Distributed Access through Renewable Energy Scale-up (DARES) project. This was disclosed in the financing agreement for the loan project seen by Nairametrics.

The federal government plans to provide subsidy to developers and operators of solar mini-grids in unserved and underserved areas in the country. The subsidy will be provided through a World Bank approved loan of \$750 million under the Distributed Access through Renewable Energy Scale-up (DARES).

The federal government is ramping up the disbursement of the N140 billion solar intervention fund, a facility by the Central Bank of Nigeria (CBN) to close the huge energy gap, especially in Nigeria's rural communities. In the last quarter of 2020, the CBN had introduced the fund that would offer.

The federal government of Nigeria is set to offer subsidies to developers and operators of solar mini grids in unserved and underserved areas across the country. This initiative will be facilitated through a World Bank-approved loan totaling \$750 million under the Distributed Access through.

Abuja, December 14, 2023 – The World Bank today approved the Nigeria Distributed Access through Renewable Energy Scale-up (DARES) project, which is financed by an International Development Association* (IDA) credit of \$750 million and will leverage over \$1 billion of private capital and significant.

Nigeria is set to expand access to electricity in unserved and underserved areas through a \$750 million loan from the World Bank. The loan, approved in December 2023 under the Distributed Access through Renewable Energy Scale-up (DARES) project, will be used to subsidize solar mini-grid developers.
