# **Government subsidy for solar container kit in Vietnam**

## Overview

---

Households installing rooftop solar systems for self-generation and self-consumption, with integrated battery storage, are expected to benefit from multiple support policies, including financial subsidies and preferential loans.

Households installing rooftop solar systems for self-generation and self-consumption, with integrated battery storage, are expected to benefit from multiple support policies, including financial subsidies and preferential loans.

With the aim to legally operate in Vietnam, rooftop solar power projects must comply with the requirements of Vietnam's prevailing regulations on conditions and registration procedures for operating in Vietnam. Through this detail article, BLawyers Vietnam would like to share with you about the.

On 22 October 2024, the Government of Vietnam issued Decree No. 135/2024/ND-CP stipulating policies encouraging development of self-produced and self-consumed rooftop solar power ("Decree 135"), which would immediately take effect from the date of issuance. Decree 135 ends nearly four years of.

After a long wait, the Government has officially issued Decree No. 135/2024/ND-CP dated 22 October 2024, providing mechanisms and policies to encourage the development of on-site self-consumption rooftop solar power ("Decree 135"). The Decree comes into effect on 22 October 2024 with the following.

Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing location-based pricing and, for the first time, incorporating energy storage systems. The updated scheme highlights the growing importance of storage in stabilizing the.

On 22 October 2024, the Vietnamese government promulgated its long-awaited Decree No. 135/2024/ND-CP governing the mechanism and policy for incentivising the development of self-consumption rooftop solar power systems ("RTS") ("Decree 135"). Decree 135 provides the legal basis for developing such.

Decision 13, which will take effect on May 22, 2020, introduces a number of new incentives and mechanisms for investors in solar power projects in Vietnam. New Feed-in Tariff One of the most notable features provided by Decision 13 is the extension of the feed-in tariff (FIT) for solar projects.
