## Overview

---

Greece's Ministry of Environment and Energy has launched a €200m subsidy program for solar projects and small storage systems to encourage residential and agricultural segments to adopt renewable energy.

Greece's Ministry of Environment and Energy has launched a €200m subsidy program for solar projects and small storage systems to encourage residential and agricultural segments to adopt renewable energy.

Greece has launched a new subsidy program to encourage more households and farmers to install solar projects and small storage systems. The €200 million (\$215.3 million) scheme is part of the country's post-pandemic recovery plan and will cover between 20% to 65% of PV system costs, depending on.

Greece's Ministry of Environment and Energy has revealed a new €200 million (\$215.3 million) subsidy program for solar projects and small storage systems in the residential and agricultural segments. The scheme is backed by the country's post-pandemic recovery plan. From April, Greek households and.

You can apply for the program "on the roof" and receive a grant. You should already have a grid contract with Hellenic Electricity Distribution Network Operator excluding the connection of the photovoltaic plant. You will need: This translation is generated by eTranslation, the European.

The Greek government is opening for submissions in April a new subsidy programme targeting the installation of small solar photovoltaic (PV) systems and batteries in the residential and agricultural segments. Rooftop solar installation. Image by DZ4. With a budget of EUR 200 million (USD 217.5m).

In 2022, Italy's Superbonus 110 program gave a tax credit of up to 110% for home renovations, prompting more than 1 GW (2 GWh) of annual ESS storage installation in its residential sector, six times more than 321 MWh in 2021. However, in February 2023, Minister of Economy and Finance Giancarlo.

Households and farmers in Greece will be able to access government subsidy

for their solar and storage systems under the Ministry of Environment and Energy (YPEN) new €200 million Photovoltaics on the Roof program, with special bonus of 10% for people with disabilities (PWS), single parents and. Does Greece have a solar subsidy program?

[Click here for the source article](#) Greece's Ministry of Environment and Energy has launched a €200m subsidy program for solar projects and small storage systems to encourage residential and agricultural segments to adopt renewable energy.

How much does Greece's new solar-plus-storage scheme cost?

Greece's new solar-plus-storage scheme has a €200 million budget, which stems from the country's post-pandemic recovery plan. Of this, €35 million of funds are for vulnerable households facing energy poverty.

Why does Greece have a 10% subsidy bonus?

There is also a 10% subsidy bonus for disabled Greeks, single-parent families, and families with many children. The subsidy levels show that the government is very keen on battery installations. One of the main reasons for this is the grid's struggle to accommodate new renewable power capacity.

How much money does a solar energy programme cost?

With a budget of EUR 200 million (USD 217.5m), the programme will enable households and farmers to install up to 10.8 kW of PV capacity and 10.8 kWh of battery storage, Energy Minister Kostas Skrekas announced.

How much does the new PV subsidy scheme cover?

The new scheme can cover between 20% to 65% of PV system costs, depending on the subsidy pot. For batteries, the first two subsidy pots will cover 100% of battery purchases and installation. The third and fourth subsidy pots will cover 90% of the battery costs.

How much money does the new PV subsidy pot cover?

Families with annual incomes higher than €40,000, or individuals with incomes higher than €20,000 will claim funds from a €50 million subsidy pot. In addition, the government has established a separate €30 million subsidy pot for farmers. The new scheme can cover between 20% to 65% of PV system costs, depending on the subsidy pot.
