How much does Greece's new solar-plus-storage scheme cost?

Greece's new solar-plus-storage scheme has a €200 million budget, which stems from the country's post-pandemic recovery plan. Of this, €35 million of funds are for vulnerable households facing energy poverty.

How much does the new PV subsidy scheme cover?

The new scheme can cover between 20% to 65% of PV system costs, depending on the subsidy pot. For batteries, the first two subsidy pots will cover 100% of battery purchases and installation. The third and fourth subsidy pots will cover 90% of the battery costs.

How much money does the new PV subsidy pot cover?

Families with annual incomes higher than €40,000, or individuals with incomes higher than €20,000 will claim funds from a €50 million subsidy pot. In addition, the government has established a separate €30 million subsidy pot for farmers. The new scheme can cover between 20% to 65% of PV system costs, depending on the subsidy pot.

What is the PV subsidy plan & how does it work?

Under the plan, households will be able to seek funding to cover up to 75% of the costs needed to install PV panels at auxiliary building areas or mount them atop their dwellings, whereas farmers will receive support for up to 60%. The individual subsidy to be granted can be a maximum of EUR 16,000 for households and EUR 10,000 for farmers.

How much grid space is available for small PV systems?

The 2 GW of grid space is available for small PV systems up to 10 kW in size,

and will be offered on a first-come, first-served basis. About 40% of this will be offered to residential net-metering systems, while 30% of it will be given to small commercial PV systems. The remaining 30% will be allocated to agricultural PV projects.

Government subsidy for solar panel mount for container in Greece

LIQUID COOLING ENERGY STORAGE SYSTEM

EMS real-time monitoring
No container design
flexible site layout

Cycle Life
≥8000

Nominal Energy
200kwh

IP Grade
IP55
