Government subsidy for turnkey containerized solar in Guernsey

Overview

Should Guernsey have solar farms?

In response to calls for solar farms in Guernsey, Little Green highlights the potential of brownfield developments for sustainable energy while advocating rooftop solar as the island's primary path to net-zero. They emphasize the need for environmentally responsible solutions, like agrivoltaics, to balance energy generation with land use.

What is the energy strategy for Guernsey?

The Electricity Strategy for Guernsey covers the period up to 2050. The Committee for the Environment & Infrastructure considered several different ways in which Guernsey could meet its future demand including solar, wind, tidal, additional interconnectors, energy storage and alternative fuels.

How many solar panels are there in Guernsey?

A solar panel project at a Guernsey charity is now complete and will power about 40 homes, Guernsey Electricity said. There are 310 photovoltaic panels on the roof of the newly reopened Guernsey Rural Occupational Workshop (Grow) site. The charity worked with Guernsey Electricity and The Little Green Energy Company on the scheme.

Are Guernsey housing association new build properties energy efficient?

Guernsey Housing Association new build properties meet high energy efficiency standards. In addition there are new initiatives being explored for all new and existing buildings in respect of energy efficiency. Construction industry initiatives to pilot modern green methods of construction are being supported by government.

What are Guernsey green funds?

Guernsey Green Funds channel over £5 billion into regulated sustainable funds, investing in projects such as wind, solar and forestry. In 2022 Guernsey

launched the world's first Natural Capital Fund regime, complementing the Guernsey Green Fund kitemark, which is aimed at helping channel investment into biodiversity and natural capital projects.

How is Guernsey connected to the European electricity grid?

Guernsey is connected to the European Electricity Grid through a submarine cable link (via Jersey) into the Cotentin peninsular, due east of Jersey.
