

# **Government subsidy for turnkey solar container in Bulgaria**

## Overview

---

As part of the National Recovery and Resilience Plan and decarbonization efforts, the Ministry of Energy of Bulgaria is receiving applications from households for grants of 100% for solar thermal collectors and up to 70% for photovoltaic installations with or without battery storage.

As part of the National Recovery and Resilience Plan and decarbonization efforts, the Ministry of Energy of Bulgaria is receiving applications from households for grants of 100% for solar thermal collectors and up to 70% for photovoltaic installations with or without battery storage.

Bulgarian households can apply for grants for photovoltaic systems and solar collectors for own consumption until November 10. The government's program is worth EUR 123 million, of which EUR 40.8 million is for the first round. As part of the National Recovery and Resilience Plan and.

Bulgarian households can apply for grants to install photovoltaic systems and solar collectors for own consumption. As part of the National Recovery and Resilience Plan, the Ministry of Energy of Bulgaria has financed grants for households of 100% for solar thermal collectors and 70% for.

The Bulgarian Ministry of Energy has approved €268 million in state aid for 249 renewable energy projects, including energy storage units. These projects were selected under two funding rounds of the National Recovery and Resilience Plan. The Bulgarian government aims to accelerate the deployment.

The Bulgarian Ministry of Energy has opened a public consultation for a new round targeting 1.9 GWh of standalone storage capacity, building on the success of its initial RESTORE procurement, which backed nearly 10 GWh of energy storage development. From ESS News Bulgaria's Ministry of Energy has.

With nearly 10 GWh of standalone energy storage capacity awarded—more than triple the initial target—the country is making significant headway in reinforcing grid stability and accelerating the integration of renewables. Under

the RESTORE initiative, launched through Bulgaria's National Recovery.

Bulgaria is launching a public consultation into a grant auction scheme for renewable energy projects and up to 350MW of energy storage facilities. It is the country's first clean energy auction, and will also support proposed renewable generation capacity of 570MW for wind and solar for the first.
