

# **Government subsidy for turnkey solar container in Tunisia**

## Overview

---

66,000 households are scheduled to take part in this initiative. A subsidy of 1,500 dinars will be granted for each PV installation. In addition, a subsidized loan of up to 3,000 dinars, will be granted to eligible households via their electricity bill.

66,000 households are scheduled to take part in this initiative. A subsidy of 1,500 dinars will be granted for each PV installation. In addition, a subsidized loan of up to 3,000 dinars, will be granted to eligible households via their electricity bill.

The ELMED interconnection project, which will link Tunisia to Italy by 2028, will play a key role in stabilizing energy supply, while supporting the energy transition in Tunisia and Europe. In addition, a network code has been drawn up to ensure the efficient integration of renewable energy.

Major investments in solar power could be coming to Tunisia after the local government granted building licenses to multiple international solar companies. The North African country awarded more than \$386 million worth of licenses to solar firms from France, Norway, and Japan. The projects will be.

Tunisia's Ministry of Industry, Mines and Energy has opened a tender that will award two solar projects with a combined capacity of 200 MW to feed electricity into the national grid. Solar panels. Image by ABO Wind (). Each of the two projects on offer will be of 100 MW in size.

The Tunisian Solar Plan (PST) is the national program aiming at reaching the renewable energy development strategy targets. The goal is to increase the total share of renewables in the electricity generation mix from 3% today to 30% by 2030. In order to reach these targets, Tunisia has implemented.

Against the odds, the Tunisian government is trying to get its authorisation programme for procuring small, on-grid solar PV projects back on track. It has launched a fifth bidding round and set a new feed-in tariff structure applicable to both current and past projects. It needs to persuade.

Tunisian Government Objectives for Large Scale Solar & Wind Projects. Tunisia is targeting 35% of renewable energy in its energy mix by 2035, representing circa 3,800MW. To achieve this objective the Tunisian Government is launching a series of solar and wind tenders across the country, between two.
