This guide reviews the best practices for solar panel installation, the equipment needed for solar energy systems and how to calculate solar energy installation costs. [SHOP SOLAR PANELS NOW](#) Solar panel installation costs have dropped significantly.

Solar panels are used to power everything from calculators to sports stadiums to satellites — and they can just as easily be used to power a home. You don't need to be a rocket scientist – or anything close to it – to get solar panels for your home. Today, going solar is a routine home improvement.

Going solar is a major investment, and choosing the right solar panel company for the job can make or break the effectiveness of your solar system. Fortunately, there are many excellent solar companies on the market offering advanced technology, affordability, high efficiency, trouble-free customer.

Adding solar panels to your home could be long overdue. Why trust EnergySage?

Once reserved for climate-conscious homeowners willing to shell out a pretty penny, solar panels now cover the rooftops of millions of U.S. homes. Why'd they become so popular?

The cost of solar has come down.

Today, most homeowners know that installing solar panels can help reduce energy costs and offset carbon emissions, but getting started can be intimidating for first-time buyers. Solar energy is not a simple impulse purchase, but rather a multi-decade commitment that requires a unique solution for.

A home solar energy system costs between \$18,000 and \$20,000 before any incentives and typically saves homeowners around \$1,500 annually. The installation cost of solar panels and electricity bill savings depend on local electricity rates, the solar company you choose, how much sunlight your roof.

Solar power is an increasingly popular option for homebuyers who want to cut their energy bills, reduce their carbon footprint or both. Whether you're a home builder or a remodeler, consider adding solar panel installation as part of your services to make your business more competitive. This guide.
