How do I get a solar installation?

Fill out the online form, and a trusted independent installer will call you to schedule a consultation. The solar specialist will review suggestions for your home based on square footage, power needs and appliance wattage to ensure a whole-home solution.

How do I find the best solar panel installer near me?

There are five steps to finding the best solar panels provider near you. Find a network of trusted installers for your solar system, solar panels and electricity needs. Find a solar panel installer today! 1. Understand the Costs and Credits.

What does a solar installer do?

According to the Bureau of Labor and Statistics, “Solar photovoltaic (PV) installers assemble, set up, and maintain rooftop or other systems that convert sunlight into energy. Most solar panel installations are done outdoors, but PV installers sometimes work in attics and crawl spaces to connect panels to the electrical grid.”.

What are people saying about solar installation services in Los Angeles?

What are people saying about solar installation services in Los Angeles, CA?

“Tim and the team at AWS Solar did a very thorough job explaining what and why we needed to have a specific system that would satisfy our household's needs. High quality install and recommendations of areas that needed repair in advance of install.

What is a solar energy system?

Solar energy systems usually consist of a solar array and other equipment connected to the home and often the local power grid. A solar array is a group of solar or photovoltaic (PV) panels wired together to create an electrical

power output. Solar arrays include panels, inverters and mounting racks to complete a solar energy system.

Are solar panels a good investment?

Solar panel installation costs have dropped significantly in the past decade. Solar energy systems can make new homes cost more and increase a home's selling price. The expense of installing solar panels can show returns in 5-10 years with lower power bills, depending on the home's location and energy needs.
