

House solar system complete kit

Overview

What is a complete solar system kit?

Complete solar panel system kits that are the most energy efficient and reliable on the market today. Solar packages include everything you need to get your residential system up and running. Simply determine your required energy use and select the solar kit that is right for your home.

What does a solar power kit include?

Our grid-tied kits include solar panels, inverters and a racking system. The off-grid solar power kits include batteries, solar panels, a power center and your racking system. Complete kits are also available for grid-tied systems with a battery backup, RV and marine off-grid systems and remote industrial solar panel systems.

What is a solar panel kit?

Our solar panel kits for home are easy for you or a contractor to install. Each solar panel kit comes with solar panels, grid-tie inverters and mounting hardware and is customized to your energy needs and home's unique specifications. Take our quick questionnaire to create a custom solar panel kit based on your energy needs.

Is a solar home kit a good investment?

A solar home kit is a great investment to supply your home with clean, renewable power. SunWatts can help you find and install the perfect solar kit for your home. Complete solar panel system kits that are the most energy efficient and reliable on the market today.

Should you buy a home solar panel kit?

Take the easy route – instead of buying and assembling parts one by one, opt for a complete home solar panel kit. DIY solar kits ensure a seamless and straightforward transition to solar, providing all the essential components you

need to set up solar power for your home and start lowering your utility bill.

What are off-grid solar power kits?

The off-grid solar power kits include batteries, solar panels, a power center and your racking system. Complete kits are also available for grid-tied systems with a battery backup, RV and marine off-grid systems and remote industrial solar panel systems. Customize any kit with additional items that align with your project needs.
