

How to compare solar panels

Overview

How do I choose the right solar panels for my home?

Additionally, if your roof features a complex shape, the dimensions of the panels become more important. Generally, your solar installer can find the right-sized panels for your home based on your roof's characteristics. Listed as: Maximum static load, snow load, wind load.

How do you compare solar panels?

Here's how we compare them: The best way to assess a solar panel's performance is to look at its efficiency, output, and temperature coefficient. Efficiency measures how well solar panels convert sunlight into electricity.

How do I choose the best solar installer?

A quality solar installer will typically install quality solar panels, so your main focus should be choosing the best solar installer for the job—your installer's experience and your solar system's size have a bigger impact on effectiveness. Still, every home is different, and most will benefit from having the most efficient panels on the market.

How efficient are solar panels?

However, for those with ample space, panels within the average efficiency range are more than capable of meeting energy needs. Listed as: Temperature coefficient (P MPP), Temperature coefficient (P max) Solar cells, constructed from semiconductor materials, see a decrease in voltage as their temperature rises.

Which solar panel is best?

It's the most efficient panel at 22.8% and comes with the longest warranty (40-year performance and product warranties—15 years longer than the industry standard). Maxeon is the highest-rated solar panel on the EnergySage Marketplace. The biggest downside to Maxeon solar panels is the price tag.

How do I choose a solar panel for my roof?

Even light shading can reduce your solar panels' output by 50% or more. Look for solar panels with high power output and high efficiency. If you have a complex roof with a lot of small, awkward spaces, we recommend selecting a small solar panel that still offers a lot of power. How many solar panels do you need?
