

# How to install a solar system at home

## Overview

---

How do I install solar panels?

Ground-mounted panels can be installed anywhere with good sun exposure and enough open space. A minimum of 350 square feet is usually required. Installing solar panels requires the following steps: Plan the solar energy system based on the home's size, location and energy needs. Measure, cut and assemble the support structure for the solar array.

Is a DIY solar panel installation a good idea?

A DIY solar panel installation is not the best option if you still rely on utility energy, which most people do. Installing solar panels without the proper expertise can lead to major issues that may cost you more in the long run.

Should you install solar panels yourself?

You can install solar panels yourself, but doing it alone involves risks—especially when working against a deadline. Incentives can drastically lower your overall cost, but solar is still a big investment. To save money, it's no surprise that many homeowners consider a DIY approach.

How do I choose a solar system for my home?

Assess your energy needs. Begin by looking at your energy bills to find your annual electricity usage. Besides small grid upkeep and transmission fees in most areas, PV installations can lead to solar savings that eliminate nearly all of your utility energy spending. Evaluate your home's solar potential.

How much does it cost to install your own solar panels?

In contrast, our 8kW DIY solar kits currently range from \$10k-\$15k depending on the components selected. So, after factoring in taxes, shipping, and associated costs, you could save more than \$10,000 on your solar project by installing the system yourself. So what does it take to install your own solar panels?

How do I choose a solar panel manufacturer?

Choose Solar Panel Supplier: Select a reputable Solar Panel Manufacturing Company to supply and install your solar panels. Consider factors such as the variety of solar panel models available, cost, warranty options, and customization for your specific needs.
