

# Installers solar panels near me

## Overview

---

How do I find the best solar installer near me?

Follow these tips to hire the best installer near you: Look for installers who are members of the Solar Energy Industries Association (SEIA) and certified by the North American Board of Certified Energy Practitioners (NABCEP). Read their reviews on HomeGuide and Google. Get at least three in-person estimates to compare.

Where should a solar power system be installed?

Regardless of the type of solar panel used, the most ideal setup for a solar power system is installing solar panels on a roof — in a region with long peak sunlight hours — with the panels facing south (for homes in the Northern Hemisphere). Investing in a solar power system is easier today than ever before.

What makes a good solar panel installers Directory?

A good solar panel installers directory simplifies this process. It turns hours of research into a few easy clicks. These directories showcase leading solar businesses, ensuring your search for quality installation is both fast and dependable. By using a 'solar companies near me' feature, you save time and connect with local specialists.

How do I get a solar panel installation project started?

Get your solar panel installation project started by requesting a free in-home energy consultation using the form above. Our licensed, local professionals will review your solar energy needs, provide product recommendations, and review your pricing and financing options.

Does Home Depot install solar?

During your free in-home consultation, The Home Depot's local solar power installer will clearly explain the installation process and how easy it is for you

to go solar. By powering your home with clean, renewable solar energy, you're creating a healthier environment and conserving natural resources.

Where do solar panels work best?

Solar panels work best for homes in sunny areas with southern or southwestern exposure and don't provide as much value in areas that are regularly cloudy or rainy. How long does it take to install solar panels?
