

# Interesting facts of solar system

## Overview

---

What are some facts about the Solar System?

Millions of the same systems as ours can be found in the universe and are called star systems. Our solar system has many other objects other than the planets and moons. Millions of asteroids, meteoroids, and comets can be found in our solar system's vast space. With these facts about the Solar System, let us learn about it. Age! 1.

What are the strangest facts about the Solar System?

Scientists have discovered ice-spewing volcanoes on Pluto, while Mars is home to a truly "grand" canyon the size of the United States. There may even be a giant, undiscovered planet lurking somewhere beyond Neptune. Read on for some of the strangest facts about the solar system. 'Uranus is weird.'

How did the Solar System form?

The mass at its centre collected to form the Sun and a flat disk of dust around it. This eventually formed the planets and other bodies of the solar system. The solar system consists of the Sun, planets, dwarf planets, moons, and numerous smaller objects such as comets and asteroids.

What makes the solar system unique?

The solar system, our home in the universe, is a place of wonder and mystery. From the fiery dominance of the Sun to the icy reaches of the Oort Cloud, it is a system filled with diverse celestial bodies, each with its unique characteristics and quirks.

What is the history of the Solar System?

The solar system's history is recorded in craters, asteroid belts, and planetary compositions, all offering evidence of its dynamic and violent past. The Solar System showcases paradoxes with a massive star, Kuiperian dwarfs, and complex dynamics, revealing gravitational insights and cosmic mysteries.

What percentage of the Solar System is found in the Sun?

99.86% of the solar system's mass is found in the Sun. The majority of the remaining 0.14% is contained within the eight planets. The four smaller inner planets, also known as the "terrestrial planets", are primarily composed of rock and metal.
