## Overview

---

What is a 160W adventure Kings solar panel?

The 160W Adventure Kings Solar Panel is great for all types of travellers. Quiet, cost effective and simple, the 160W panel is the perfect balance of size and power. Whether you want to live off the grid, use a green energy source or just a free alternative to charge your batteries, the Adventure Kings Solar Panel has got you covered.

What is a 160W solar panel?

Quiet, cost effective and simple, the 160W panel is the perfect balance of size and power. Whether you want to live off the grid, use a green energy source or just a free alternative to charge your batteries, the Adventure Kings Solar Panel has got you covered. It can run a 12V fridge, camp lights and charge your phone/laptop all at the same time.

How much power does a 160W fixed solar panel produce?

The individual solar cells are grade A monocrystalline for high power output. Capable of up to 10.01A of charge, connect to a DC-DC Charger or MPPT regulator (available separately) to get up to 12.8A of charge out of the 160W Fixed Solar Panel and make the most of free power from the sun!.

How much power does the adventure Kings solar panel generate?

On those bright sunny days, the Adventure Kings Solar Panel can generate as much as 22.4V, which is why the PWM (Pulse-Width Modulation) weatherproof IP68 controller is essential. The controller prevents damage by converting the 22.4V input into a safe voltage for charging your battery and other devices.

Why should you choose adventure Kings solar panels?

The Adventure Kings Solar Panel uses efficient monocrystalline solar cells giving your more output for a smaller sized panel than polycrystalline. On those bright sunny days, the Adventure Kings Solar Panel can generate as

much as 22.4V, which is why the PWM (Pulse-Width Modulation) weatherproof IP68 controller is essential.
