## Overview

---

How much does solar cost in Knoxville?

The average price of solar is about \$1.99 to \$2.99 per watt in Knoxville, so anything in that range is a fair price. Some prices may be too good to be true. If your installer quotes you way below the average price in your area, proceed with caution. Installers must charge fair prices to remain in business and provide you with 25 years of support.

Who are the best solar companies in Knoxville?

Here are the top companies we recommend for solar in Knoxville: The guys at AEG solar based in Little Rock do what they say and follow up keeping their word. They are extremely explanatory making sure the information they give is well understood.

Are solar incentives a good idea in Knoxville?

Solar incentives and rebates can cut the cost of installing solar in Knoxville by thousands of dollars. The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery storage.

Can a solar energy system be installed with 0 down?

Solar Sale USA solar energy systems not only generate energy on your roof, they can also generate cash in your pocket. We have special programs that will allow a system be installed with \$0 down. I contacted Solar Sale to get a quote and we amazed at all the information that I received. I am anxious to get started doing business with them!.

How do I choose a solar company?

Solar companies that are licensed, insured and hold certifications take their business seriously. Look for companies that have NABCEP Certified professionals or certified electricians on staff and are properly insured, so their

workers, and you, are protected. Financing options.

How do I evaluate my rooftop solar project?

Visit the DOE's Solar Energy Technologies Office for tools to evaluate rooftop solar potential. Once you've identified a promising project, contract a solar installer certified through the North American Board of Certified Energy Practitioners (NABCEP) to do a professional study and develop a project plan.
