

# **Mobile pv generator EPC service price in Cyprus**

## Overview

---

What is a commercial photovoltaic system in Cyprus?

Commercial photovoltaic systems in Cyprus are usually used by businesses for self-consumption. That is, the energy generated by the solar panels is solely used for the building where the panels are installed.

Where can photovoltaic panels be installed in Cyprus?

Photovoltaic systems can be installed on flat and inclined roofs and on the ground. Our team can visit the place where you want the solar panels to be installed, evaluate the amount of space, sun exposure and possible shading and suggest the best place so that you make the most out of your photovoltaic panels in Cyprus.

Who is eligible for a photovoltaic system in Cyprus?

Anyone with Cyprus permanent residency is eligible for a photovoltaic system in Cyprus, given that the property they want the panels to be installed on is interconnected with the EAC network and it was built according to the regulations of the Department of Town Planning and Housing.

What is the maximum power of a net-billing photovoltaic system in Cyprus?

The maximum power of a Net-Billing photovoltaic system in Cyprus is 8 MW. It is an extremely beneficial scheme which helps people make a profit by generating and using Renewable Energy Sources. Read more Commercial photovoltaic systems in Cyprus are usually used by businesses for self-consumption.

What is the maximum power of a net-metering photovoltaic system in Cyprus?

The maximum power of a Net-Metering photovoltaic system in Cyprus depends on the power supply of each building. The maximum power of a photovoltaic system with a 1-phase power supply is 4.16 kW and of a photovoltaic system with a 3-phase power supply is 10.4 kW. What is the

power of a Net-Billing photovoltaic system in Cyprus?

.

Is net-metering a good investment in Cyprus?

Cyprus is a country the sun rarely abandons and this is a great investment opportunity for individuals and businesses. Net-Metering in Cyprus is a photovoltaic system that helps permanent residents of Cyprus to save on their electricity bills. The consumer chooses which system they wish to install on their roof or plot.
