

Mobile pv generator turnkey solution price in Germany

Overview

What data is gathered in the German PV price monitoring?

The data stems from interviews with solar installation companies and an evaluation of offers made to end consumers on online portals. The following data is gathered in the German PV Price Monitoring: Split of turn key costs of < 30 kWp rooftop systems in different cost components.

Why should you choose a mobile PV system?

A mobile PV system permits a quick reaction to requirements as they change, and allows you to top-up during spikes in demand. Major construction sites require large volumes of electricity. Solarfold can produce clean and environmentally-sustainable electricity, particularly when immense volumes of energy are needed in inaccessible areas.

What does a full turnkey company do?

Full turnkey service for training, process, ramp up and production to help kickstart your business. Assistance in all phases of the project from the start until production is running. Assistance in all steps of the project. These include helping with technical data for panel datasheet, purchasing of material, etc.
