

Mobile solar container EPC service price in New Zealand

Overview

How are solar projects procured in New Zealand?

Solar projects are typically procured on the basis of an EPC contracting model (in large part due to the “bankability” of this model). However, EPC contracts are not common in the domestic construction industry – there is no market ‘standard’ form in New Zealand.

Are solar EPC contracts common in New Zealand?

However, EPC contracts are not common in the domestic construction industry – there is no market ‘standard’ form in New Zealand. Consequently, in New Zealand the solar EPC contracts are either based on the FIDIC suite, or bespoke agreements used by private developers in other jurisdictions.
